Experience

Software Engineer May 2022 – Oct 2025
Dabeeb *Riyadh, Saudi Arabia*

- Led the development of **Dabeeb ARS**, a peer-to-peer accommodation rental app built with Expo and React Native, implementing core modules including property listings, booking flows, user reviews, and secure payment handling.
- Played a key role in **Dabeeb FMS**, a React-based fleet management dashboard, delivering features for real-time vehicle tracking, maintenance scheduling, and performance analytics.
- Contributed to **Dabeeb ERP**, a multi-branch inventory management system using React Native, Express.js, and VendHQ API integration to streamline stock operations.
- Worked on **Dabeeb App**, a scooter and bicycle rental platform with GPS-based availability, payment integration, and user onboarding flows.

Junior Software Engineer Feb 2021 – Mar 2022
Gigalabs *Lahore, Pakistan*

- Enhanced and maintained **Linesheets**, a platform for showcasing curated product collections, ensuring a smooth browsing and sharing experience using React and Express.js.
- Contributed to **New York Adventure Club**, a tour booking platform featuring an interactive map and responsive interface to improve user engagement.
- Worked on core modules of **Bukit**, a SaaS marketplace solution built with Next.js and Express.js, focusing on vendor onboarding and scalable operator management.
- Implemented frontend components in **Furniture Bank California**, improving item listing and request workflows to support the platform's mission.
- Developed components for a **Financial Tracking System**, optimizing interfaces for transaction monitoring and inventory visualization using React.

Education

Bachelor of Science in Computer Science 2016 – 2021
Gujrat Institute of Management Sciences (PMAS AAUR) *Gujrat, Pakistan*
